Subject: Full Lead Inspection and Abatement needed for Unit #331

Marc:

As discussed on the June 25 conference call. EPA is requesting that Brady Sullivan conduct additional lead inspections and possible lead hazard abatement in all of the Mill West's child-occupied, residential units, as well as any units occupied by pregnant women.

I was recently contacted by Sarah Reinhardt, resident of Unit #331. She is the mother of a 4 yr. old child and is very concerned about her child's safety by staying in her unit. I know Diane remembers the first cleaning of this unit and knows said that the resident has a lot of toys.

Could you please put this unit on the top of the list of units needing additional risk assessment and possible lead hazard abatement? Ms. Reinhardt can be contacted at (603) 770-8576. Her email is smykema@yahoo.com

Please keep me informed of the scheduling and progress on assessing and/or abating all lead hazards in this unit.

Thank you.

Sincerely,
Molly Magoon

Marc:

I've asked for the information about Brady Sullivan and related questions as follow-up to the recent EPA inspections (RRP and Disclosure Rules). I have not received any response from you yet. Attached is the list of questions that I sent to you after the June 3 inspection. It is pretty basic information that I usually request from companies and they usually can put it together rather quickly.

Could you please let me know when I can expect to receive it? If it is any much longer could you please explain the time lag?

Thank you.

Marc:

Thank you for your reply. I will be out during the weeks of July 27 – August 7. If I could receive it by the time I get back on August 10, I would really appreciate it. I can only imagine the work that you have had to be doing re: Mill West alone.

Also: Do you have any questions about the letter that Andrea sent last week? Does Diane? Does EnviroVantage? Or Mickey Laskey? Or anyone else involved? If you do, please ask us ASAP. Andrea and I will be out of the office next week (and I will be out an additional week) and therefore no one will be here to answer any questions then.
